SUMMARY — I'm a passionate Frontend Developer with experience building responsive, user-friendly web applications using modern JavaScript frameworks like React.js and Next.js. My expertise lies in developing scalable, fast, and SEO-optimized applications with a keen focus on creating pixel-perfect user interfaces and intuitive user experiences. I have experience working across the full frontend stack, from component-driven development to state management using Redux and handling server-side rendering with Next.js. I'm always eager to learn and stay updated with the latest trends in frontend technologies, and I love working on projects that challenge me to think creatively and solve real-world problems. In addition to coding, I enjoy collaborating with cross-functional teams and contributing to open-source projects.

SKILLS

Frontend Experience with front-end technologies like HTML , CSS , Tailwindcss ,JavaScript , React.js, Next.js .Knowledgeable in React.js technologies like Redux , Redux toolkit , Redux Thunk,Router .

Backend Knowledgeable in Node.js , Express.js and MongoDB for back-end development .

WORK EXPERIENCE

AlgoDox Technology Private Limited (Jaipur, Rajasthan)

April 2024 – Present

Frontend Developer

- Developed and launched multiple web applications, including ALX-TRIP, ottMovies, and CarRental websites using React.js and Next.js.
- Implemented Server-Side Rendering (SSR) and AMP pages across projects to enhance performance, SEO, and mobile experiences.
- Integrated infinite smooth scrolling for seamless user interaction in long lists and content-heavy sections.
- Built admin panels for managing content and data, incorporating Redux for efficient state management.
- Focused on creating responsive and user-friendly interfaces, optimizing for both desktop and mobile platforms.
- Collaborated on full-stack development for client-facing and admin dashboards.
- Designed and developed the Algodox company website, focusing on SEO, responsiveness, and a custom theme aligned with brand identity.

Key Projects:

- ALX-TRIP: International tour booking platform.
- ottMovies: News and movie streaming website.
- CarRental: Comprehensive car rental system with admin management.

Personal Projects

E-commerce Website-ShopSwiftly

- Developed a full-stack e-commerce website called ShopSwiftly featuring a wide range of product categories including Clothes, Health Care, Furniture, Electronics, Beauty Picks, Pet Care, Fitness, Fashion Trends, and Grocery. Implemented user authentication with sign-in and sign-up functionality.Backend was built using Node.js and Express.js with MongoDB for database management and add authentication.

GitHub Repository- E-Commerce

Bill-ManagmentSystem

- Developed a bill-managmentSystem. Utilized React.js for the front-end, integrating Redux for state management.
- GitHub Repository-BillManagmentSystem
